

Instructions on Accessing AltSPACE on Oculus Headset for MNT^eSIG Virtual Conference 2022

It will be useful if you have a mouse available, but not necessary*

Make sure you have a stable internet connection

Step 1:

Unpack your Oculus device and connect to Wifi. It will prompt you wait for updates to be installed.

Step 2:

On your phone, download the Oculus app by Facebook Technologies, LLC from Android Playstore or Apple Store

Step 3:

Once your Oculus Headset is finished updating, open the app on your phone and follow instructions on how to connect it.

It will either do it automatically, or you will have to type a code given on the Oculus screen onto the app.

Note: You *will* have to connect it to your Facebook account. If you feel uncomfortable doing this, you can create a dummy Facebook account to use the Oculus.

Step 4:

Once this is connected, wear your headset and explore the menu options and the 3D environment. Get used to using the hand controllers!

Step 5:

On the main Explore page, go to the Search bar and type in “AltSpaceVR.” Once you see the app, click on it and Install it. Wait for it to install and then open it.

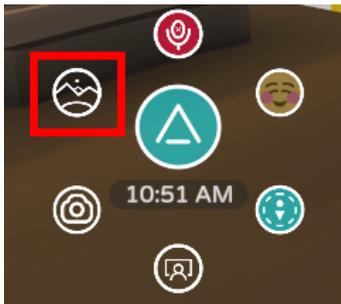

*Note - If you have an Oculus with AltSpaceVR installed and you find that it's not working properly, uninstall AltSpaceVR, restart your Oculus and reinstall AltSpaceVR.

*Note - If you already have AltSpace, make sure it is updated to the latest version by searching for it in the app store and clicking **Update**.

Step 6:

Once it opens:

If you are new to the app: go to the tutorial and go through it. Once you are done, click on the mountain icon (Title Screen) using your controller and click on **Sign In**.

If you have gone through the tutorial before: Click on **Sign In**.

Step 7:

Click on the option to sign in with a Microsoft Account.

You will have to visit: Microsoft.com/devicelogin

It will give you a case-sensitive code, use this to connect your Microsoft account.

Note:

*If you don't have a Microsoft account, you can create one using your gmail, by clicking Create Account

*Note that your work/school email sometimes does not work that easily, we recommend using a personal email like @gmail.com.

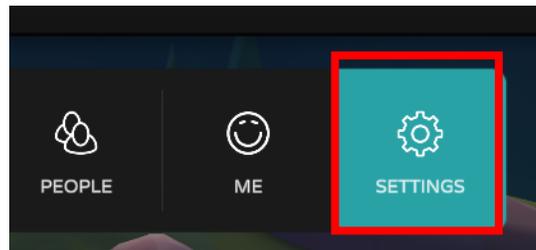

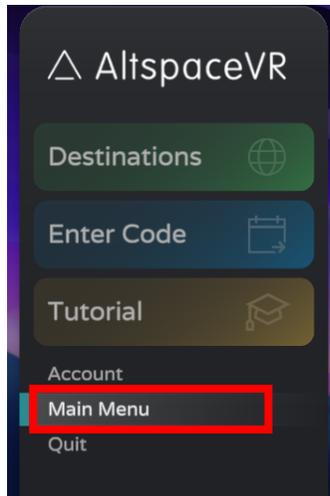

If need be, you can customize your avatar again, make sure to save all the changes you made.

Once you login using your device, the AltSpace page should automatically update.

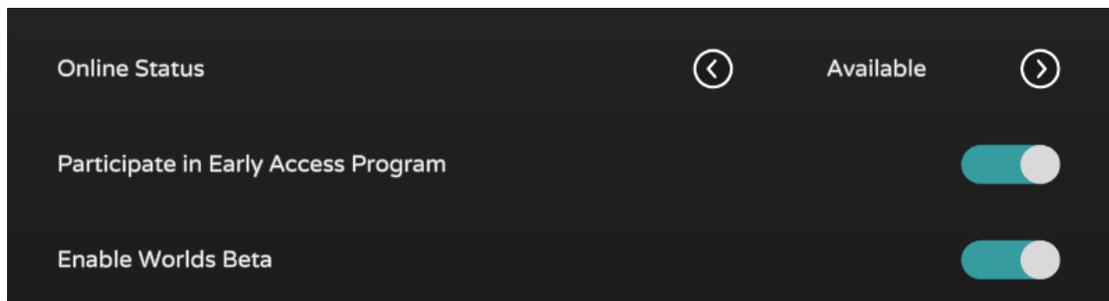

Step 8:

Before entering the Conference world, make sure you:

Click on **Main Menu** on the left-hand Menu bar, and click on Settings on the Lower right

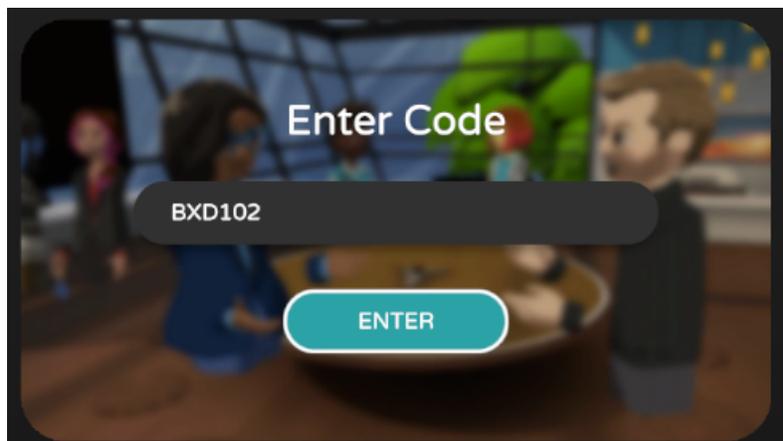

Enable both the “Participate in Early Access Program” and “Enable Worlds Beta”

Step 9:

Click on **Enter Code** on the left-hand menu. Enter code **BXD102**.

Click on **Enter**

This code will get you into MNTeSIG's world.

*There will be an event code that you will have to use to attend the Virtual Conference.

*The Event code will be posted at <https://scme-support.org/index.php/news>

Feel free to explore, walk around, look at the posters and play with the settings

Tips:

- Unmute yourself so others can hear you

See you at the Conference!!
